SUBJECT.

Chickadevamma temple on the hill in the Hegyadadevanakote Taluk -

From

The Dy Commr, Mysore District -

No. 68 Dated 27th August 1906.

At the Representative Assembly of 1903 the subject (no 404) brought forward by the Representative member of the Hegyadadevanakote Taluk in connection with the Chickadevamma temple on the hill was :—

(i) that the Chowdi on the hill had fallen into disrepair

(ii) that the ground on the hill might be extended to

to hold water sufficient to last for the whole year

(iii) that Dharmadarsis might be appointed to check the income and expenditure of the temple

& (iv) that the Pariturna of the temple might be slightly increased.

An estimate ~~from Rs 750~~ which was originally submitted by the Revenue authorities for Rs 750 for reconstructing a chavadi, but which has since been reduced by the P.W.D. authorities to Rs 598-9-7, has been received for sanction. The Dy Comr recommends that the reduced estimate may be sanctioned, the work being entrusted to P.W.D. The cost is proposed to be met from the Savings of Rs 601-12-6 available at the credit of the Institution.

the hand, it seems that the Dy Comr sanctioned a sum of Rs 5-0 in 1903 but that no one having come forward to undertake the work, the estimate was cancelled by him in August 1906. No arrangement is however suggested now by the Dy Comr to carry out the work.

B 10 persons are proposed by the Amildar to be appointed Dharmadarsis of the temple, but the reason for suggesting such a large number has not been stated.

There is a monthly Jamdik of Rs 1-7-3 for Pandituru It is said that this amount is now being utilized towards the supply of $\frac{1}{8}$ seer of oil & a seer of rice per day.

The quantity of oil used since is proposed to be doubled, the cost excess being met from the receipts of the temple under the heads "Karike" & "Anukrupa" and from annual the interest of Rs 37-13-3 on the Endowment amount. A statement showing the income and expenditure of the institution for 5 years from 1899-900 to 1903-04 has been submitted by the Dy Comr, from which it appears that the total income for the period was Rs 611-4-6 and the total expenditure was Rs 526-11-8, leaving a balance of Rs 84-4-10. A regular scale of expenditure has not been sent, with a view to enable Govt to fix the expenditure in cash instead of in kind

Has the Chavadi any connection with the temple? Why should the temple funds be used for the repair of the Chavadi? If this info is available from the file, please note it below. 12/9/06

From the correspondence, it is observed that the Chavadi on the hill consisted of 6 ankanams out of it. 4 ankanams were used by the Thanmadies and Kavalgars of the temple and the other two by the devotees

12/9/06

Although the Jasdik is very little, being only Rs 1-7-3 per mensem, the temple seems to get a decent amount from Kankes &c. The accumulated saving is Rs: 611-4-6, and it is thought

Muzrai Secretariat. | File No. of 190

to spend the greater part of it (Vz Rs: 526-11-8) upon the repair of a Chavadi which is used by the Thammadis and devotees of the Temple. The question is whether almost the whole of the accumulated income should be spent for the repair of this Chavadi. ~~It should~~ It is stated in the Dy Comrs letter that the reduced estimate for Rs 526-11-8 framed by the P. W. D will be quite insufficient for the work. Orders are solicited whether that estimate may be sanctioned.

The number of Dharmadarsis proposed is too large. A reduction may be asked for, as also a regular scale of expts for the future

To,

Secretary to the Government of Mysore
in the Muzrai Department.

Sir,

With reference to your docket No 813 dated 29th August 1904 calling for certain information regarding the repairs of chavadi on the hill of Chickdevammastemple, in the Heggadadevankote Taluk, I have the honor to state that the Amildar reports that the roof of the tiled house is in a neglected condition, and that as there is no accommodation to the devotees who happen to visit the place, it is very necessary to build a tiled house of 3 Anikanams close to water. The pond on the hill has not been repaired though an estimate for Rs 50/ was sanctioned last year. Arrangements have been made to repair it during the current year. Necessary report will be made after the completion of the above work if more repairs are required. There is a bhojne to this temple. He keeps the

accounts of receipts and disbursements and furnish necessary information once in 3 months to the Amildar at the Cutcherry. The Taluk officials also check it whenever they go on circuit. There are no Dharmadarsees to this temple. Arrangements are being made to appoint the Dharmadarsees, who however seem to feel that it is great inconvenience to them to visit frequently as the temple is situated on the hill. There is a monthly Tasark of Rs. 1-7-3 for Paditaram. As the present supply of 1/8 seer of oil and a seer of rice per day is hardly adequate to a Jammadi and a watcher, it is necessary to raise it to 1/4 seer of oil and 2 seers of rice per day.

The sums of Rs. 601-12-6 and 2500/- are reported to be under the Hosa head and in Government of India Pro note. Out of Rs. 29-3-11 deposited in the Savings bank, the sum required for the Nitya Katle expenses is being withdrawn now and then. The cost of the repairs of the buildings required to be executed may be met from the Hosa head &c of the temple.

2. As regards the 1st point, an estimate duly checked and corrected by the P.W.D. for Rs 5 9 8-9-7 for reconstructing the Chowdi in question has been received for sanction, and the Dy. Comrs recommends that the work may be entrusted to the P.W.D. for execution. The estimate ~~is~~ is sanctioned, ~~and~~ the Charge being met from the sum of Rs 601-12-6 reported to be available at the credit of the temple. The Comptroller is

to place the amount at the disposal of the Chief Engineer, who will kindly make arrangements to have the work completed at an early date.

3. In the matter of repairing the bund, the Dy Comr states that a sum of Rs 50 was sanctioned by him in 1903, but that as no one came forward to undertake the work, the sanctioned estimate was cancelled by him in August 1906. ~~This point is not in question~~ An attempt should, however, be made to have the work
